To Whom It May Concern

Re: Air Craft, Inc.

Gentlemen,

Baird/Williams Construction has had the pleasure of working with Air Craft, Inc. on numerous projects over the past ten years. These projects mostly include the construction of educational facilities. In every case we have been extremely pleased with the professionalism shown by Air Craft, Inc., both from an administrative stand point as well as their field construction personnel

Baird/Williams Construction would highly recommend Air Craft, Inc. for any project which you may be contemplating, and we look forward to working with them on many projects in the future.

If I can provide any additional information or assistance please feel free to contact me.

Regards,

BAIRD/WILLIAMS CONSTRUCTION, LTD.
